OBJECTIVE

Final-year IT undergraduate with a foundation in Java, OOP, Data Structures Algorithms, SQL, and full-stack web development using React.js and Spring Boot. Familiar with JUnit and software development concepts, with good problem-solving and coding skills. Seeking an opportunity to apply my technical skills and continue developing as a software professional.

EDUCATION

Lakireddy Bali Reddy College of Engineering (Autonomous) — Mylavaram, Andhra Pradesh
B.Tech in Information Technology | *CGPA:* ***8.90*** — *Aug 2023 – Present*

Bharat Junior College — Vissannapeta
Intermediate – MPC | ***98%*** — *2023*

Little Star UP School — Vissannapeta
SSC | ***10 GPA*** — *2021*

TECHNICAL SKILLS

Languages: Java,SQL .
Core Concepts: OOP, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks.
Web Development: HTML, CSS, React.js, Node.js, Spring Boot(basics).
Database: MySQL,Firebase.
Tools: Git, GitHub, VS Code.
AI Tools: Claude AI,GitHub Copilot,Notion AI,Gemini AI.

INTERNSHIP

Full-Stack Development Intern — APSCHE / CSC India
MERN Stack Internship | *React.js, Node.js, Express.js, MongoDB* — *2025*

- Completed a 2-month structured internship building web applications with the MERN stack, working on both frontend components and backend APIs.
- Developed a **Land Rental Web Application** implementing property listing, search, and rental request features, including form validation and error handling.
- Debugged functional issues across frontend and backend layers and verified application behavior against expected outcomes before deployment.

PROJECTS

Student Management System | *Spring Boot, Thymeleaf, JPA, MySQL* — 2026

- Developed a Java-based CRUD web application for managing student records using Spring Boot MVC architecture.
- Implemented Spring Data JPA with MySQL for persistent storage and wrote validation logic to maintain data integrity.
- Built and debugged create, update, and delete workflows, ensuring correct application behavior across edge cases.

Smart Fertilization Recommendation System | *React.js, Hugging Face API, Firebase* — 2025

- Built a React.js application that integrates with the Hugging Face REST API to generate fertilizer recommendations from crop and soil data.
- Integrated Firebase for real-time data storage and handled API response validation and error cases to keep the app reliable.

Library Management System | *Java, JDBC, MySQL, JUnit* — 2024

- Built a database-driven Java application with full CRUD support for books, users, and issue/return tracking using modular OOP design.
- Integrated JDBC with MySQL and optimized SQL queries for accurate data retrieval and storage.

CERTIFICATIONS

- AWS Certified Cloud Practitioner – *Amazon Web Services (2026)*
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional – *Oracle(2025)*
- Cisco Networking Academy (Networking, OS)

ACHIEVEMENTS

- Solved **700+ problems** on **CodeChef** (Problem Solver badge) and **200+ problems** on **LeetCode** (100 Days Badge), demonstrating strong coding and problem-solving ability under time constraints **https://leetcode.com/u/ashok983/**
- Secured **2nd** Place in DSA Coding Contest organized by **SKELO** in our college, receiving a cash prize for outstanding performance.
